

Parijat Weather TMY2 Utility

If you are an architect or building designer looking for the weather data, this utility is for you.

Your only source of getting a very convenient tool to view and print the weather data in a graphical Trend or tabular format. Select any of the parameters and view the data in several convenient formats.

- Extremely easy to use and Very lean and thin. Require low system and resources overhead.
- Select by the city (USA) or by WBAN No and the start & end time for the plot.
- Supports all the elements of the TMY CD.
- Wind data may be plotted as a polar chart.

Welcome to the world of Parijat, your exclusive and most mature, experienced (since 1992) source of help in Industrial data acquisition, control, HMI, SCADA and MIS, MRP, ERP or Internet applications based on **non proprietary open architecture**.

Parijat is the only team member or an extension of your staff, that has been educating since 1992 that you no longer have to be a slave to the proprietary HMI, SCADA products anymore. Parijat can show you and train you how to apply Microsoft's products to solve your mission critical control challenges, without loosing any advantages of the legacy proprietary solutions.
